

WHY WE WANT YOU

Your content got our attention! Your followers love you for a reason and it shows you're a person of influence. We strive for long term partnerships through the content you create by sharing our products to your community.

OUR STORY

Muscle MX was founded in 2016, born out of a very personal and difficult experience. One of our close family members suffered a stroke and was left with chronic pain as a result. We were heartbroken to see our loved one in so much discomfort, and traditional pain medications just weren't helping them recover.

Determined to find a better solution, we set out to research and develop a line of natural CBD products specifically formulated to target pain. We knew that CBD had the potential to be a safe and effective alternative to addictive pain medications, and we were determined to create a product line that would make a real difference in people's lives.

After countless hours of research and experimentation, we finally developed a range of CBD products that we were confident could help people manage their pain naturally and without the risk of addiction. We were thrilled to see the positive impact our products had on our loved one and on countless others who tried them.

Today, Muscle MX is dedicated to helping people find relief from chronic pain in a safe and natural way. We are committed to providing our customers with the highest quality products and the best possible service.

We are so grateful to have the opportunity to make a difference in the lives of others, and we are constantly looking for new and innovative ways to help people find relief from their chronic pain. We believe that everyone deserves to live their best life, and we are dedicated to helping people do just that through the power of natural CBD.

**Help us get people's pain in check
and help spread the word!**

CONTENT OUR COMMUNITY LOVES

Lifestyle content, show what your gym routine looks like, document a day of training etc. We thrive on quality content with great natural, lighting, authentic to your audience and always ALWAYS in vertical format.
